

Franklin PUD Fast Facts

January 2019

Customer-owned utilities in the public power family like Franklin PUD are owned and governed by the people and communities we serve. We are united behind one goal – to provide affordable, reliable non-profit electricity to our customers. As a public utility, we have a charter to provide you with cost-based rates. What that means is, we buy our power at cost and we pass along those costs directly on to you and make no profit from them.
